Pricelist

Got head lice?

Once head lice have been discovered at school or the crèche, it is actually too late and getting rid of the unpleasant parasites is a huge task.

Prevent propagation.

Therefore, prevention must always have priority. The communal coat hooks play a major role. With coats hanging so closely to one another, a lice epidemic can strike easily.

The LiceBags®

The new lice bags offer you an effective, easy, safe and inexpensive means with which to put an end ones and for all to the transfer of lice on the coat hooks.

Convenient.

This new lice bag has a double loop for hanging and is also very easy to seal (two pull cords in the top seam), so that little ones can put them on and take them off without help from parents.

A real bargain!

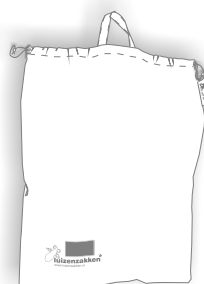

An important consideration, of course: the price of the new lice bags is unbelievably low. The product is by far the least expensive of its kind.

Material: PP Non Woven (polypropylene).
